

Slicerblades for the bread- and food processing industry.

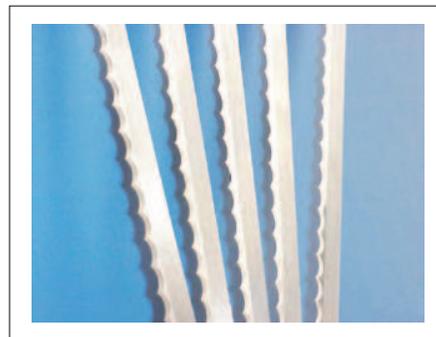

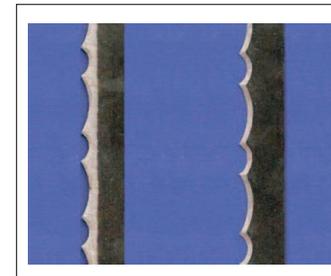

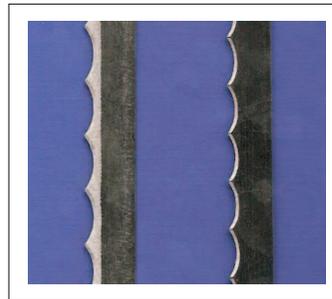

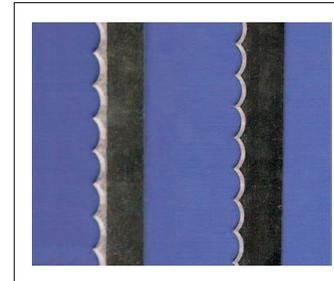

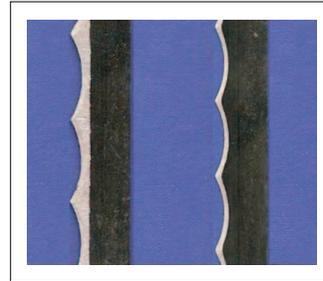

First of all, we want to revisualize our company:

Since 1923 our company is in the european market with selling products and mashines for production industries.

We deliver to our customers different speciality goods for their mashines.

We stock all our parts, so that the delivery time for parts is only the transportation. Shipment every day to the customers.

So, please see on the following pictures a range of products.

The maximum possible guidance by questions is guaranted and be informed, that our pric/performance is correct.

If you might be interested in our company, pls call us immediately.
